
EDUCATION AND TRAINING

EDUCATION AND TRAINING

We at EnviroDerm Services pride ourselves on providing accurate, informative and engaging education and training products and services. We run open courses and in-house courses for the health & safety professional. In addition we can provide management and workforce awareness training as well as a range of education and training products to help with your training needs. If you cannot find exactly what you need from the information here we can also develop a training package specifically for your needs and your organisation.

SKIN HEALTH SURVEILLANCE AND MANAGEMENT COURSE

The interactive one-day course that will enable you to create an effective skin health surveillance system. This covers skin health surveillance in depth with an overview of other aspects of skin management such as risk assessment, risk management, and skin care.

For further information on this course click here

SKIN EXPOSURE RISK ASSESSMENT COURSE

This course provides an evidence based approach to risk assessment for skin exposure in the workplace. The course will provide essential information on how the skin interacts with the working environment, the importance of a combined approach to assessing the effects of chemical exposure in the workplace and identifying the real hazard, recognising skin exposure in the working environment, developing a structured approach to assessing skin exposure in the workplace, and will provide practical tools and methods to take back to your workplace. For more information please click here .

CONTROL OF OCCUPATIONAL SKIN EXPOSURE COURSE

This is an interactive course providing knowledge and tools that can be used to control skin exposure in the workplace. This course will provide essential information on how the skin interacts with the working

environment and how we can use this knowledge to reduce skin exposure and make our workplace safer. There will be time for working on case studies to build skills and tools to take back to your workplace for control of skin exposure to harmful substances and workplace situations. For more information on this course please click here .

OCCUPATIONAL SKIN MANAGEMENT COURSE

The course for those concerned with managing skin exposure in the workplace. This course covers all aspects that are required for creating an effective occupational skin exposure management system.

For more information on this course please click here

COMPETENT PERSON TRAINING

Short training sessions for training a competent person to carry out regular simple skin checks as part of a comprehensive effective skin health surveillance system.

For more information on these training sessions click here

SKIN AWARENESS TRAINING

Skin awareness sessions for the workforce that aim to raise their awareness of issues surrounding skin exposure in the workplace and what is necessary to avoid occupational ski problems. These sessions have both a presentation (usually audio-visual) along with the option to have interactive sessions including:

- **Glove contamination test - can workers remove gloves without contaminating their skin?**
- **Skin condition measurement - what is their skin condition like with advice on improving skin condition**

For more information on sin awareness training please click here

SKIN MANAGEMENT IN HEALTH CARE

A workshop on how to protect workers whilst still preventing health care associated infections. for more information on this workshop please contact us
